

(a) E249: R delays the peer  
Run order: R/H/H/R

(b) E223: waiting shifts to the peer  
Run order: H/R/R/H

● Host recovery (H)    ■ Native recompute (R)

Filled / open markers: first / second repetition of each action. Vertical offsets only separate points.

Each point is one measured run; the two x-axis ranges differ.
